## 2020 JUNE

### COVID-19 UPDATE

The first half of the year has been turbulent for all because of COVID-19. Projects that CREST had planned for this year were either held back, changed or cancelled to respond to the pandemic. I believe many of you are facing the same predicament of having plans changed. Nonetheless, we can put our trust in God for His plan is always the best.

At this moment, majority of our COVID-19 relief projects have ended and reports have been consolidated from our local and overseas partners. We express our thankfulness and continue to pray for the people who are suffering.

#### Overseas Response: -

**China** – Donated Personal Protection Equipment (PPE) to the medical frontlines, public cleaners and schools. 50 single-parent families received back-to-school kits and financial subsidy for 1 year.

**Indonesia** – Through 3 local NGOs, we provided PPE and food for the poor.

**Philippines** – Partnering with 2 local NGOs, we provided food aid for the poor.

**Myanmar** – participated in the COVID-19 prevention and awareness programme with USAID, WHO, UNICEF and our local partner Karen Baptist Conventional.
